

See your home on your phone.

You're not always around to make sure that your home is safe. Or to see where the dog's hidden your shoe. Nest Cam lets you check in – even when you're out.

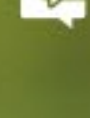

Stay connected to what matters to you.

Get alerts when something happens.

You can't always be watching your video feed. So Nest Cam looks for motion and listens for sound. If something's up, it sends an alert to your phone.

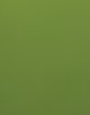

Talk and listen.

Nest Cam has a mic and speaker. So you can hear what's going on and talk back using the Nest app. When someone is about to speak, Nest Cam will chime to get your attention.

See every detail.

Stream securely to your phone, tablet or laptop in super-clear 1080p HD. Get a 130° wide-angle view of the room. Or zoom in and enhance for a closer look.

Go back in time.

Video History continuously records up to 30 days of video in the cloud, so you can see what you've missed, save clips and more. (With Nest Aware subscription, sold separately.)

Turn off the lights.

Night Vision LED sensors let you see the whole room at night so that you can check on the baby.

Bank-level security.

Your home – and video – should be private. That's why Nest Cam uses bank-level security with 128-bit SSL encryption, Perfect Forward Secrecy and a unique 2048-bit RSA key.

Ready. Set. Watch.

Quick, easy setup.

Nest Cam only takes a moment to set up. Just plug in the power cable, download the app and set it up from your Android or iOS device.

Put it anywhere.

Nest Cam's magnetic stand works in all kinds of homes, on all types of surfaces. Screw it into the wall, stick it to something metallic, set it down on something flat or attach it to a standard tripod or mount.

Tech specs

Power	AC power adaptor: Input: 100-240 V AC, 0.2 A Output: 5 V DC, 2.0 A Camera input: 5 V DC, 1.0 A
Colour	Black
