

# Standard Hasp

## Specifications and Dimensions

- When more than one padlock needs to be fitted to an isolation point a hasp can be fitted to expand the number of Lockout points available. The design of a hasp ensures that all the padlocks need to be removed before the hasp can be detached
- Manufactured from high tensile Steel sheet which has in turn been electro-plated to prevent corrosion.
- The padlock fixing section is Vinyl coated to improve grip and provide greater visibility.
- Colours: Red

Part No	Size	Hasp Dimensions		
		Jaw Size (A)	No of Holes	Padlock Hole Dia.
ERSLOK044	25mm	25mm	6	9mm
ERSLOK045	38mm	38mm	6	9mm
