

Installation instructions, 100A REC with SPD REC2SPD

IMPORTANT INFORMATION

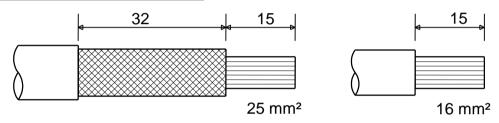

This unit should be installed by a qualified competent person in accordance with all relevant legislation and regulations including building regulations and wiring regulations BS7671. If in doubt contact a qualified competent person.

- Turn off all power supplying this equipment before working on or inside the equipment.
- Always use a properly rated volt-sensing device to confirm the power is off.
- Replace all devices, doors and covers before turning on the power to this equipment.
- To avoid ingress of swarf and similar material, always remove gland plates to allow cutting/slotting for cable entries.

Failure to follow these instructions could result in serious injury or death.

DO NOT USE POWER TOOL SCREWDRIVERS ON ELECTRICAL CONNECTIONS

1 CABLE STRIPPING DETAILS

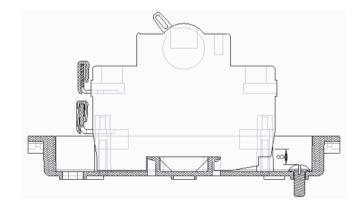

2 ENSURE THE TIGHTNESS OF ALL SCREW CONNECTIONS

| Device | Max cable Capacity | Recommended tightening torque |
