INSTALLATION & MAINTENANCE MANUAL

GU5KW / CL5KW / GLS9BCKW / GLS9ESKW

WI-FI CONTROL

We recommend enabling the Bluetooth to facilitate faster pairing. Please note that due to the limitations of Bluetooth only one lamp can be added at a time. If more lamps are to be added to the app this must be done within the time the lamps are in pairing mode, which is approximately 2 minutes.

- Download the **SmartKnight** app on Google Play or the App Store®
- Once the app is downloaded, open the app and tap "Register" then follow the on-screen instructions
- To add a lamp to the app, switch on the power to the lamp and tap "+" on the top right corner
- Select "Lighting (Wi-Fi)"
- If the light is flashing rapidly and Bluetooth is enabled, the app will prompt to add the lamp to the app, follow the on-screen instructions to do so. If the light is not flashing, follow the on-screen instructions to reset it
- Connect to the desired Wi-Fi network, tap "Confirm" and the app will start searching for devices. Please note only 2.4 GHz networks are supported and make sure your device is connected to the same Wi-Fi network
- After the light has been added successfully to the app, the lamp can be named and added to a room. After naming the lamp, tap "Done"
