Products Covered:

PIR-EXT-BLK

PIR-EXT-WHT

GB

Safety Information

- Installation must be carried out in accordance with national building and wiring regulations. If you are in any doubt about installing this product, please consult a qualified electrician.
- Before commencing installation or any maintenance, turn off and isolate the circuit to be worked on by removing the fuse or switching the circuit breaker off at the distribution board.
- This product is suitable for connection to a 220-240Vac 50/60Hz supply.
- Ensure appropriate Personal Protective Equipment is used during installation.
- When cutting holes, drilling or screwing beware of joists and take care not to damage existing wiring or pipework.
- Care should be taken to avoid trapping or pinching of fingers/skin when securing the terminal cover.

FR

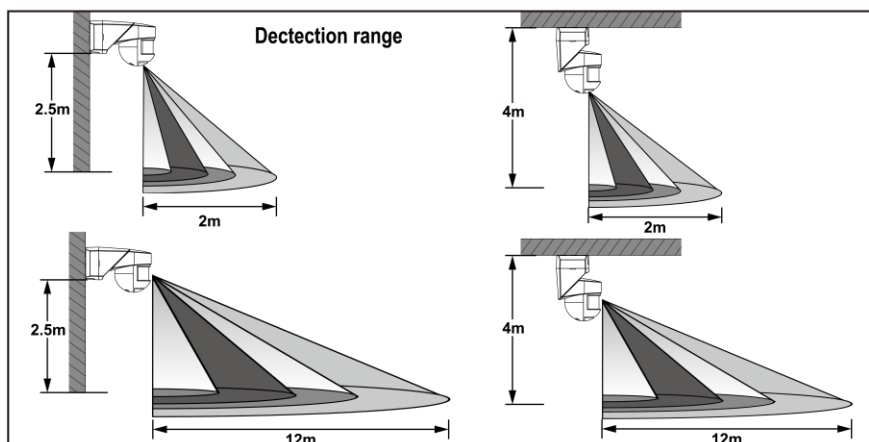

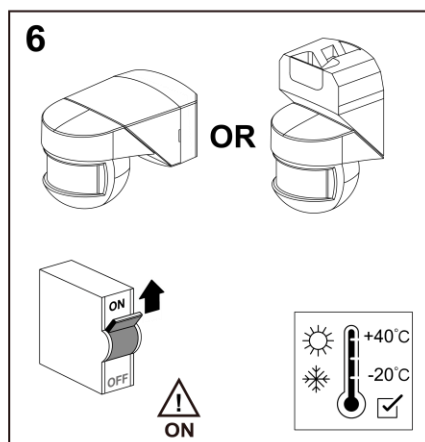

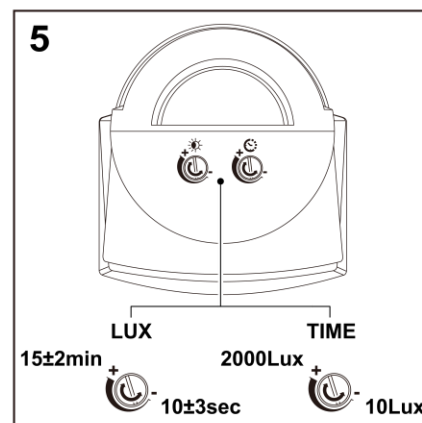

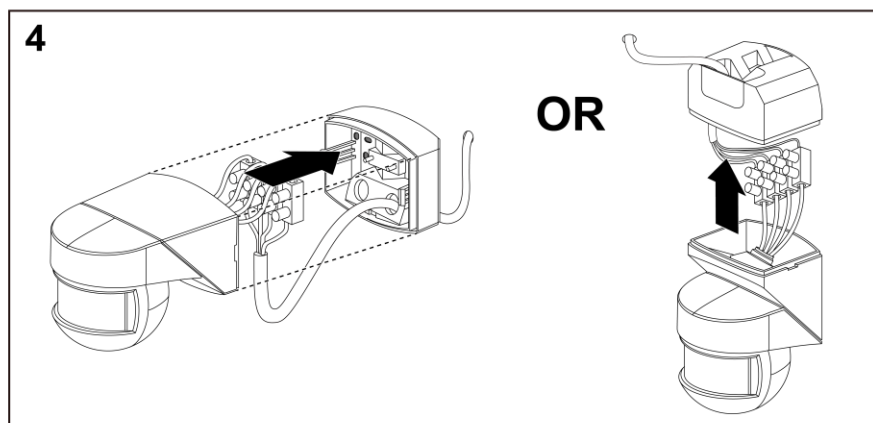

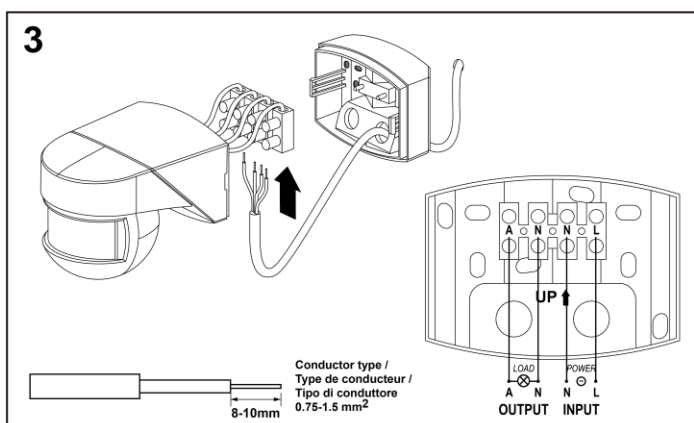

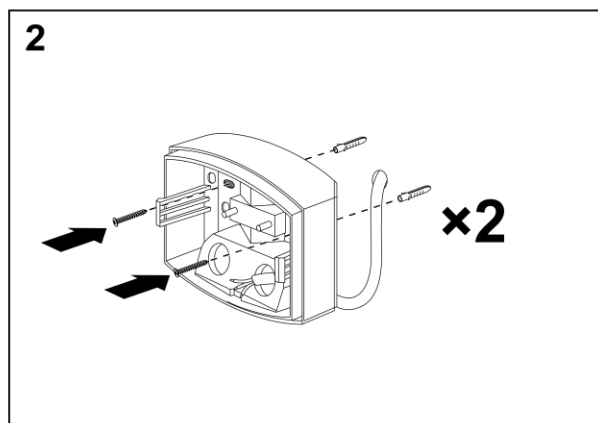

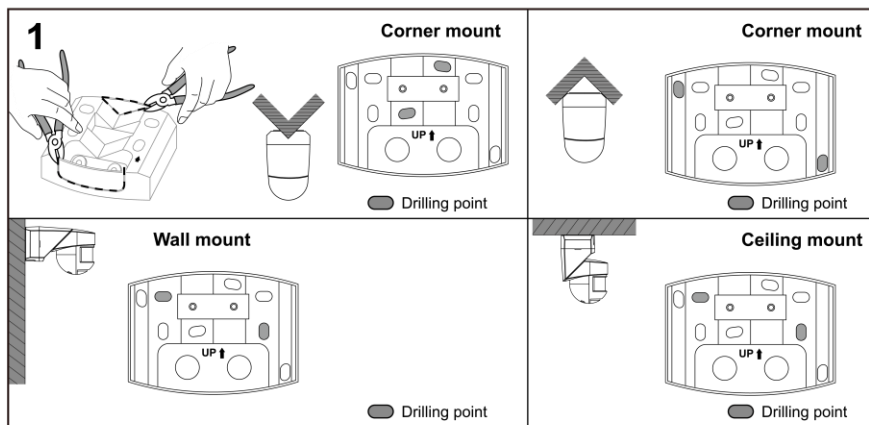

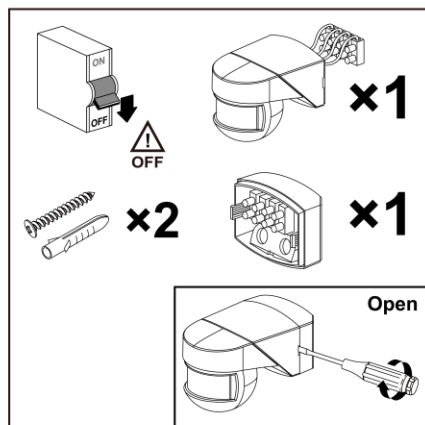

Information sur la sécurité

- Avant de commencer l'installation ou tout manipulation, éteindre et isolez le circuit en retirant le fusible ou en coupant le disjoncteur au niveau du tableau de distribution
- L'installation doit être réalisée selon les règles de câblage et de constructions en vigueur. Si vous avez un doute sur l'installation de ce produit, veuillez consulter un électricien qualifié.
- Ce produit est conçu pour une alimentation 220-240V AC 50/60Hz.
- Assurez-vous que l'équipement de protection individuelle approprié est utilisé pendant l'installation.
- Lorsque vous effectuez des perçages ou vissages, attention à ne pas abîmer les installations existantes.
- Des précautions doivent être prises pour éviter de coincer ou de pincer les doigts/la peau lors de la fixation du cache-bornes.

Informazioni di sicurezza

- Prima di iniziare l'installazione o qualsiasi intervento di manutenzione, spegnere e isolare il circuito su cui intervenire rimuovendo il fusibile o disinserendo l'interruttore automatico sul quadro di distribuzione.
- L'installazione deve essere eseguita in conformità con le normative edilizie e di cablaggio nazionali. In caso di dubbi sull'installazione di questo prodotto, consultare un elettricista qualificato.
- Questo prodotto è adatto per il collegamento a un'alimentazione 220-240Vac 50/60Hz.
- Assicurarsi che durante l'installazione vengano utilizzati dispositivi di protezione individuale appropriati.
- Quando si praticano fori, si fora o si avvita, fare attenzione ai travetti e fare attenzione a non danneggiare i cavi o le tubazioni esistenti.
- Prestare attenzione per evitare di intrappolare o pizzicare le dita/la pelle durante il fissaggio del coperchio del terminale.

L'élimination du produit et des matériaux d'emballage doit être conforme au décret français No. 2021-835 (France uniquement)

The Waste Electrical & Electronic Equipment Regulations (WEEE) require that products bearing this symbol must not be disposed of with household waste as they may contain substances harmful to the environment. The Local Authority can provide advice on recycling.
