

Choose the function
Select the module
It's iCON simple

The module concept which is unique to iCON, gives one the option of determining how you wish to control your fan and based on your requirement select the appropriate module. Airflow has invested extensively in the research and development of our modules to bring our customers the most versatile controllability available in the extractor fan market. Our extensive range of control functions has helped the iCON product range become the leading brand it is today.

The same module is compatible with all three size iCON's – 15, 30 and 60. However, it should be noted that there are specific 240V modules and different low voltage SELV modules (please refer to the table below for details and part numbers of the various modules).

Replacing a module is also a lot simpler and cheaper than replacing the entire fan.

| Modules for use in 240V iCON Fans | | iCON 15 - 72683501 | iCON 30 - 72591601 | iCON 60 - 72591701 |
|---|---------|--|-------------------------|--------------------|
| Part No. | Control | Function | | |
| 72573602 | PCM | Manual on/off control by pull cord switch | | |
| 72612601 | TM | Adjustable timer between 1 - 30 minutes, remote or light switch operation | | |
| 72687103 | HTM | Adjustable humidity setting between 40 - 90% RH, adjustable timer and momentary pull cord to activate timer | | |
| 72687104 | PRTM | Motion sensor activation with adjustable timer | | |
| 72687102 | PRHTM | Motion sensor activation with adjustable humidity setting and adjustable timer | | |
| 72675701 | CV2 | Continuous Ventilation at 8 or 13 l/sec. Boost to a maximum flow rate of the fan by remote switching or pull cord | | |
| 72675702 | DTM | Delayed start for 2 minutes after light switch operation (ideal for quick visits) then adjustable timer between 2 - 45 minutes (DTM only). Momentary pull cord to activate timer | | |
| 72675703 | 2SHM | Remote light switch operation activates low speed. Boost speed activated by automatic humidity sensor (adjustable 40 - 90% RH) or manually by momentary cord | | |
| Modules for use in 12V iCON SELV Fans with remote transformer | | iCON 15S eco - 72683701 | iCON 30S eco - 72683801 | |
| 72573603 | PCS | Manual on/off control by pull cord switch | | |
| 72574204 | PCTS | Adjustable timer between 1 - 30 minutes, pull cord/ remote or light switch operation | | |
| 72574202 | HTS | Adjustable humidity setting 40 - 90% RH, adjustable timer and momentary pull cord to activate timer | | |
| 72574203 | PRTS | Motion sensor activation with adjustable timer | | |
| 72574201 | PRHTS | Motion sensor activation with adjustable humidity setting and adjustable timer | | |
| 72682307 | DTS | Delayed start for 2 minutes after light switch operation (ideal for quick visits) pull cord then adjustable timer between 2 - 45 minutes (DTS only). Momentary pull cord to activate timer | | |

Modules

Modules with integral transformer for use in 12V iCON fans iCON 15 eco - 72687121 iCON 30 eco - 72687122 iCON 60 eco - 72687123

| Part No. | Control | Function |
|----------|---------|---|
| 72687127 | PCE | Manual on/off control by pull cord switch |
| 72687128 | TE | Adjustable timer between 1 - 30 minutes, pull cord / remote or light switch operation |
| 72687129 | HTE | Adjustable humidity setting between 40 - 90% RH, adjustable timer and momentary pull cord to activate timer |
| 72687130 | MSTE | Motion sensor activation with adjustable timer |
| 72687131 | MSHTE | Motion sensor activation with adjustable humidity setting and adjustable timer |
| 72687132 | CVE | Continuous Ventilation at 8 or 13 l/sec. Boost to a maximum flow rate of the fan by remote switching or pull cord |
| 72687133 | DTE | Delayed start for 2 minutes after light switch operation (ideal for quick visits) then adjustable timer between 2 - 45 minutes (DTE only). Pull cord to activate timer |
| 72687134 | 2SHE | Remote light switch operation activates low speed. Boost speed activated by automatic humidity sensor (adjustable 40 - 90% RH) or manually by momentary pull cord |
