

The new Nest Cam

See your home on your mobile.
Get alerts that matter.

Meet Nest Cam.

Nest Cam helps you stay connected to what matters to you. It looks for motion and listens for sound. And if something's up, it sends an alert to your mobile.

How does it work?

Get alerts on your mobile.

Nest Cam tells you if there's motion or sound in your home while you're away.

Talk and listen.

Hear when the baby wakes up. Or tell your dog to get off the sofa.

Zoom and enhance.

See the whole room at once, or zoom in to see something up close with Nest Cam's 8x digital zoom.

Find out what you've missed.

Continuously record up to 30 days of video with a Nest Aware subscription. (Sold separately)

See your home in HD.

Securely stream 1080p HD video to your mobile, tablet or laptop.

No light? No problem.

Stay connected to what's important around the clock. With Night Vision, you can see in the dark.

Bank-level security.

Your home – and video – should be private. So Nest Cam uses security with 128-bit SSL encryption.

Quick, easy setup.

Just plug it in, download the Nest app and set it up from your Android or iOS device.
