

TECHNICAL DATA SHEET FOR PAL50 POK10BY.

Description.

PAL50 storage box kit with removable compartments containing 4000 POK10 markers and 300 carrier strips. The POK10 markers are an oval shaped marker sleeve that can easily be fitted over cables or carrier strips which means that any size cable or pipe can be marked. The POK10's oval shape and interlock design ensures the marker maintains its position and alignment when fitted. The characters are hot stamped which gives excellent legibility together with high abrasion resistance.
