

Technical Specifications

SKU: WM186-130B/C or WM186-160B/C
 Product Name: Solar Guard Lite

General Details:

- New and improved design of the UV resistant plastic base offering greater security and hold of the spikes.
- Available in two product sizes 130mm (WM186-130) or 160mm (WM186-160).
- The pins are fully adjustable and have a diameter of approximately 2mm.
- The base is 500mm in length and easy to cut down.
- Compatible with the Solar Speed Clips (WM175).

Height	Available in 130mm or 160mm
Length	500mm
Weight	106g
Material	UV Stabilised Plastic Base with Stainless Steel Pins
Colour	Available in black or clear

Installation:

- To install adjust the spikes to match the profile of the roof, then simply apply the spike directly to the side of the panel using a high strength adhesive for a permanent fixing, or can be used with applicable clips, for a removable solution.
- The base of the spike can easily be cut to shape making it quick and easy to work with.
