

NEW - EXTRA-LONG LENGTH

- Rapid action drilling with extra-long 110mm working length for 'through-fixture' drilling.
- **sqs Super Quick Spiral** flute technology for rapid spoil relief.
- Hex shank for use in an impact driver – swap bits not machines!
- Precision-ground drill tip for rapid drilling.
- Multiple material capability and suitable for soft/medium masonry. (Use Impact Masonry Plus for harder materials (see page 4).)
- 'Extra-long' length with a depth-stop for consistent depth drilling.
- Solid 1-piece construction for maximum strength.
- Designed, engineered and manufactured in the UK.

Machined shoulder for consistent depth

Armeg's **sqs** 'super quick spiral' flute technology, right up to the shoulder, for rapid spoil relief

Precision ground chisel tip for precision cutting action

Extra-Long 'XL' length and multi-material capabilities for convenient fixing

Hex shank for use in Impact Driver. Swap bits not machines!

Part Number	Diameter Size	Flute Length	Overall Length
TIM05.5XL	5.5mm	110mm	150mm
TIM06.0XL	6.0mm	110mm	150mm
TIM07.0XL	7.0mm	110mm	150mm
TIM08.0XL	8.0mm	110mm	150mm
