### Description

Rejiband® steel bracket suitable for wall installation of the Rejiband® 60 mm high and 60 mm wide wire mesh tray. Used for ceiling installation together with threaded rod. Quick assembly thanks to the Click system of connection without screws. Made of steel, finished in electrogalvanised EG.

### Advantages

Fixing by quick mount click system.

Suitable for ceiling installation using an M8 threaded rod. It allows easy adjustment on the rod and only requires a nut for fixing.

Can be used for ceiling installations with two rejiband trays using a bracket on each side of the tray.

It allows the introduction of cables into the tray from the side.

Electrogalvanised finish (standard EN-ISO 2081), silver colour, suitable for indoor installations. Corrosion resistance class 3.

#### Applications

Suitable for wall and ceiling mounting with threaded rod of Rejiband® wire mesh tray 60 mm wide and widths of 100 and 150. Suitable for electrical and telecommunication installations in public buildings, infrastructures and civil works, industrial installations, tertiary sector.
