Tool Hire Solutions

How does it work?

- Call our tool hire helpline 01453 844 333
- Tell us what you need & for how long and to whom you would like it delivered
- Provide SWA with an order number
- SWA can deliver directly to site and arrange collection back to SWA on completion of the tool hire
- SWA will then raise an invoice to cover the total hire charge

Our experienced team are on call to help and advise you with everything from ordering, delivery, collection and health and safety requirements.

See page 175-178 for a listing of tools that can be hired.
